### CAREER HIGHLIGHTS

#### Software Engineer : Techleads : Germany

June 2023 - Present

I currently work as a WordPress developer with Techleads, working with global and on key business critical internal websites for Techleads directly.

- Revamped and enhanced the visual appeal of the company website, implementing a modern design approach and improving the overall user experience
- Conducted thorough diagnostics and debugging, ensuring the website's functionality was optimized and free from errors, leading to smoother user interactions and enhanced reliability
- Participated in design discussions to assist my team with decision-making
- Successfully developed multiple websites in the German language to cater to a broader international audience, demonstrating proficiency in multilingual web development and catering to diverse user needs

#### Software Engineer : Arhpez Technologies : Pakistan

Dec 2022 - Aug 2023

- Revamped and enhanced the visual appeal of the company website, implementing a modern design approach and improving the overall user experience
- Collaborated on the development and maintenance of Learning Management System (LMS) websites, showcasing proficiency in e-learning solutions, course management, and user engagement within an educational context

- Increased reliability and performance of the Websites through redesigning

**Software Engineer : Beta Byte Technology : Pakistan**

**Oct 2020 - Nov 2022**

I started my career working for Beta Byte Technology as a WordPress developer on some key projects for their global clients.

- Assumed a leadership role as a Team Lead, overseeing and coordinating the efforts of a development team, providing guidance, and ensuring the successful execution of projects, fostering teamwork and collaboration
- Acted as the primary requirement analyst, facilitating direct communication with clients to gather project specifications, ensuring alignment with client expectations, and translating their needs into actionable development plans

**EDUCATION & CERTIFICATIONS**

Bachelors of Science in Software Engineering : CECOS University Of IT & Emerging Science, Pakistan
